

# Assessment of Climate Change for the Baltic Sea Basin - The BACC Project - 22-23 May 2006, Göteborg, Sweden

## Authors contributing to BACC

### BACC Science Steering Group

Hans von Storch  
GKSS Research Centre, Institute of Coastal Research,  
Geesthacht, Germany

Sten Bergström  
Swedish Meteorological and Hydrological Institute,  
Norrköping, Sweden

Jens Hesselbjerg Christensen  
Danish Meteorological Institute, Copenhagen,  
Denmark

Eigil Kaas  
Danish Meteorological Institute, Copenhagen,  
Denmark

Z.W. Kundzewicz  
Polish Academy of Sciences, Research Centre of Agr.  
and Forest Envir., Poznan, Poland

Anders Omstedt  
Göteborg University, Earth Sciences Center  
Oceanography, Sweden

Jouni Räisänen  
University of Helsinki, Div. of Atmospheric Sciences,  
Helsinki, Finland

Markku Rummukainen  
Swedish Meteorological and Hydrological Institute,  
Norrköping, Sweden

Morten Sondergaard  
University of Copenhagen, Freshwater Biological  
Laboratory, Hillerød, Denmark

Bodo von Bodungen  
Baltic Sea Research Institute, Rostock-Warnemünde,  
Germany

### BACC Lead Authors

Joachim Dippner  
Baltic Sea Research Institute, Warnemünde, Germany

Phil Graham  
Swedish Meteorological and Hydrological Institute,  
Norrköping, Sweden

Bo Gustafsson  
Göteborg University, Sweden

Raino Heino  
Finnish Meteorological Institute, Helsinki, Finland

Anders Omstedt  
Göteborg University, Earth Sciences Center-  
Oceanography, Sweden

Benjamin Smith  
Lund University, Sweden

Heikki Tuomenvirta  
Finnish Meteorological Institute, Helsinki, Finland

Hans von Storch  
GKSS Research Centre Geesthacht, Germany

Valery Vuglinsky  
Russian State Hydrological Institute, St. Petersburg,  
Russia

Ippo Vuorinen  
University of Turku, Finland

### Introduction and Summary

Anders Omstedt  
Göteborg University, Sweden

Hans von Storch  
GKSS Research Centre Geesthacht, Germany

### Detection of Past and Current Climate Change

Hans Alexandersson  
Swedish Meteorological and Hydrological Institute,  
Norrköping, Sweden

Lars Barring  
Lund University, Department of Physical Geography and  
Ecosystems Analysis, Sweden

Agrita Briede  
University of Latvia, Riga, Latvia

John Cappelletti  
Danish Meteorological Institute, Climate Research  
Div., Copenhagen, Denmark

Deliang Chen  
Earth Sciences Center, Göteborg University, Sweden

### Detection of Past and Current Climate Change (continued)

Malgorzata Falaz  
University of Silesia, Dept. of Climatology,  
Sosnowiec, Poland

Eirik Førland  
Norwegian Meteorological Institute, Oslo, Norway

Bo Gustafsson (lead author)  
Department of Oceanography, Earth Science Center,  
Göteborg University, Sweden

Jari J. Haapala  
University of Helsinki, Department of Geophysics,  
Helsinki, Finland

Raino Heino (lead author)  
Finnish Meteorological Institute, Meteorological  
Research, Helsinki, Finland

Jaak Jaagus  
University of Tartu, Institute of Geography, Estonia

Lev Kitaev  
Russian Academy of Science, Institute of Geography,  
Moscow, Russia

Are Kont  
University of Tartu, Estonian Institute of Ecology,  
Estonia

Esko Kuusisto  
Finnish Environment Agency, Helsinki, Finland

Göran Lindström  
Swedish Meteorological and Hydrological Institute,  
Research and Development, Norrköping, Sweden

Markus Meier  
Swedish Meteorological and Hydrological Institute,  
Rosby Centre, Norrköping, Sweden

Miroslaw Mietus  
Institute of Meteorology and Water Management -  
Maritime Branch, Gdynia, Poland

Anders Moberg  
Stockholm University, Department of Meteorology,  
Arrhenius Laboratory, Sweden

Kai Myrberg  
Finnish Institute of Marine Research, Helsinki,  
Finland

Tadeusz Niedzwiedz  
University of Silesia, Branch of Kraków Dept. of  
Climatology, Sosnowiec, Poland

Oyvind Nordli  
Norwegian Meteorological Institute, Oslo, Norway

Anders Omstedt (lead author)  
Göteborg University, Earth Sciences Center-  
Oceanography, Sweden

Kaarel Orviku  
Merin Ltd., Tallinn, Estonia

Zbigniew Pruszk  
Polish Academy of Sciences, Institute of  
Hydroengineering IBW PAN, Gdansk, Poland

Egidijus Rimkus  
Vilnius University, Department of Hydrology and  
Climatology  
Lithuania

Viivi Russak  
Tartu Observatory, Atmospheric Physics, Estonia

Corinna Schrum  
Institute of Oceanography at the University of  
Hamburg, Germany

Ülo Suursaar  
University of Tartu, Estonian Marine Institute, Estonia

Heikki Tuomenvirta (lead author)  
Finnish Meteorological Institute, Meteorological  
Research  
Helsinki, Finland

Timo Vihma  
Finnish Meteorological Institute, Helsinki, Finland

Valery S. Vuglinsky (lead author)  
Russian State Hydrological Institute, St. Petersburg,  
Russia

Joana Wibig  
University of Lodz, Dept. of Meteorology and  
Climatology, Lodz, Poland

### Projections of Future Climate Change

Deliang Chen  
Göteborg University, Earth Sciences Center -  
Oceanography, Göteborg, Sweden

Ole Bøssing Christensen  
Danish Meteorological Institute, Climate Research  
Div., Copenhagen, Denmark

Phil Graham (lead author)  
Swedish Meteorological and Hydrological Institute,  
Rosby Centre, Norrköping, Sweden

Erik Kjellström  
Swedish Meteorological and Hydrological Institute,  
Helsinki, Finland

Valentina Krysanova  
Potsdam Institute for Climate Impact Research, Dept  
of Global Change and Natural Systems, Potsdam,  
Germany

Markus Meier  
Swedish Meteorological and Hydrological Institute,  
Rosby Centre, Norrköping, Sweden

Maciej Radziejewski  
Polish Academy of Sciences, Research Centre of Agr.  
and Forest Envir., Poznan, Poland

Jouni Räisänen  
University of Helsinki, Div. of Atmospheric Sciences,  
Helsinki, Finland

Burkhardt Rockel  
GKSS Research Centre, Institute of Coastal Research,  
Geesthacht, Germany

Kimmo Ruosteenoja  
Finnish Meteorological Institute, Helsinki, Finland

### Climate-related Change in Terrestrial Ecosystems

Anto Aasa  
University of Tartu, Institute of Geography, Estonia

Rein Ahas  
University of Tartu, Institute of Geography, Estonia

Thorsten Blenckner  
Uppsala University, Department of Earth Sciences,  
Sweden

Terry Callaghan  
KVA Abisko Scientific Research Station, Royal  
Swedish Academy of Sciences, Abisko, Sweden

Jacqueline de Chazal  
Université catholique de Louvain, Département de  
Géographie, Louvain-la-Neuve, Belgium

Christoph Humborg  
Stockholm University, Dept. of Applied Environmental  
Science, Stockholm, Sweden

Anna-Maria Jönsson  
Lund University, Ecology Dept., Sweden

Seppo Kellomäki  
Nordic Network for Carbon Dynamics in Managed  
Terrestrial Ecosystems, Faculty of Forestry, Joensuu,  
Finland

Ain Kull  
University of Tartu, Institute of Geography, Tartu,  
Estonia

Esa Lehtikoinen  
University of Turku, Dept. of Biology, Turku, Finland

Ülo Mander  
University of Tartu, Institute of Geography, Tartu,  
Estonia

Tina Nöges  
Estonian Agricultural University, Institute of Zoology and  
Botany, Tartu, Estonia

Peter Nöges  
EC Joint Research Centre, Inland and Marine Waters  
Unit, Institute for Environment and Sustainability,  
Ispra, Italy

Mark Rounsevell  
Université catholique de Louvain, Département de  
Géographie, Belgium

Benjamin Smith (lead author)  
Lund University, Sweden

Mikhail Sofiev  
Finnish Meteorological Institute, Air Quality, Helsinki,  
Finland

Piotr Tryjanowski  
Adam Mickiewicz University, Department of Avian  
Biology and Ecology, Poznan, Poland

Annett Wolf  
Lund University, Centre for Geobiosphere Science,  
Sweden

### Climate-related Change in Marine Ecosystems

Bodo von Bodungen  
Baltic Sea Research Institute, Rostock-Warnemünde,  
Germany

Dariusz Dauys  
University of Klaipeda, Coastal Research and  
Planning Institute, Klaipeda, Lithuania

Joachim W. Dippner (lead author)  
Baltic Sea Research Institute, Rostock-Warnemünde,  
Germany

Juha Flinkman  
Finnish Institute of Marine Research, Oceanographic  
Data Base, Helsinki, Finland

Eberhard Hagen  
Baltic Sea Research Institute, Rostock-Warnemünde,  
Germany

Antti Halkka  
Finnish Association for Nature Conservation, Helsinki,  
Finland

Friedrich Köster  
Danish Institute for Fisheries Research, Dept. of  
Marine Ecology and Aquaculture, Charlottenlund,  
Denmark

Esa Lehtikoinen  
University of Turku, Dept. of Biology, Turku, Finland

Brian MacKenzie  
Danish Institute for Fisheries Research, Afd. for  
Havøkologi og Akvakultur (HØK), Charlottenlund,  
Denmark

Christian Möllmann  
Danish Institute for Fisheries Research, Afd. for  
Havøkologi og Akvakultur (HØK), Charlottenlund,  
Denmark

Flemming Möhlenberg  
DHI Water & Environment, Vand Og Miljø,  
Hørsholm, Denmark

Sergej Olenin  
Klaipeda University, Coastal Research and Planning  
Institute, Klaipeda, Lithuania

Ralf Scheibe  
University of Greifswald, Geographical Institute,  
Germany

Doris Schiedek  
Baltic Sea Research Institute, Rostock-Warnemünde,  
Germany

Hendrik Skov  
DHI Water & Environment, Hørsholm, Denmark

Ippo Vuorinen (lead author)  
University of Turku, Archipelago Research Institute,  
Turku, Finland

Norbert Wasmund  
Baltic Sea Research Institute, Rostock-Warnemünde,  
Germany

### Appendices

Philip Axe  
Swedish Meteorological and Hydrological Institute,  
Oceanographic Services, Västra Fröunda, Sweden

Svante Björck  
Lund University, GeoBiosphere Science Centre, Lund,  
Sweden

Thorsten Blenckner  
Uppsala University, Department of Earth Sciences,  
Uppsala, Sweden

Berhard Dahlmann  
Bundesamt für Schifffahrt und Hydrographie,  
Hamburg, Germany

Jüri Elken  
Tallinn University of Technology, Marine Systems  
Institute, Tallinn, Estonia

Juha Flinkman  
Finnish Institute of Marine Research, Oceanographic  
Data Base, Helsinki, Finland

Lars Håkanson  
Uppsala University, Department of Hydrology,  
Uppsala, Sweden

Raino Heino  
Finnish Meteorological Institute, Meteorological  
Research, Helsinki, Finland

Marianne Holmer  
University of Southern Denmark, Institute of Biology,  
Odense, Denmark

Christoph Humborg  
Stockholm University, Dept. of Applied Environmental  
Science, Stockholm, Sweden

Hans-Jörg Isemer  
GKSS Research Centre Geesthacht, Germany

Seppo Kellomäki  
Nordic Network for Carbon Dynamics in Managed  
Terrestrial Ecosystems, Faculty of Forestry, Joensuu,  
Finland

Esko Kuusisto  
Finnish Environment Agency, Helsinki, Finland

Maiju Lehtiniemi  
Finnish Institute of Marine Research, Oceanographic  
Data Base, Helsinki, Finland

Göran Lindström  
Swedish Meteorological and Hydrological Institute,  
Research and Development, Norrköping, Sweden

Wolfgang Matthäus  
Baltic Sea Research Institute, Rostock-Warnemünde,  
Germany

Tina Nöges  
Estonian Agricultural University, Institute of Zoology and  
Botany, Tartu, Estonia

Peter Nöges  
EC Joint Research Centre, Inland and Marine Waters  
Unit, Institute for Environment and Sustainability,  
Ispra, Italy

Oyvind Nordli  
Norwegian Meteorological Institute, Oslo, Norway

Anders Omstedt  
Göteborg University, Earth Sciences Center-  
Oceanography, Sweden

Maciej Radziejewski  
Polish Academy of Sciences, Research Centre of Agr.  
and Forest Envir., Poznan, Poland

Burkhardt Rockel  
GKSS Research Centre Geesthacht, Germany

Klaus Schwarzer  
University of Kiel, Institute of Sedimentology,  
Germany

Benjamin Smith  
Lund University, Sweden

Mikhail Sofiev  
Finnish Meteorological Institute, Air Quality, Helsinki,  
Finland

Wilhelm Steingrube  
University of Greifswald, Geographical Institute,  
Germany

Hans von Storch  
GKSS Research Centre Geesthacht, Germany

Heikki Tuomenvirta  
Finnish Meteorological Institute, Meteorological  
Research  
Helsinki, Finland

Joana Wibig  
University of Lodz, Dept. of Meteorology and  
Climatology, Lodz, Poland
