A special journal issue was dedicated to the NEWBALTIC Project. The following 14 papers appear in *Meteorology and Atmospheric Physics, Vol.77, No. 1-4, 2001*:

Jacob, D.: A note to the simulation of the annual and inter-annual variability of the water budget over the Baltic Sea drainage basin. pp. 61-74

Rockel, B., U. Karstens: Development of the water budget for three extra-tropical cyclones with intense rainfall over Europe. pp. 75-84

van Meijgaard, E., U. Andrae, B. Rockel: Comparison of model predicted cloud parameters and surface radiative fluxes with observations on the 100 km scale. pp. 109-130

Lenderink G., E. van Meijgaard: Impacts of cloud and turbulence schemes on integrated water vapor: comparison between model predictions and GPS measurements. pp. 131-144
