

SURBACC 2009

A SURVEY of the perspectives of the participants of the BACC project

Birgit Hünicke for

Dennis Bray and Hans von Storch

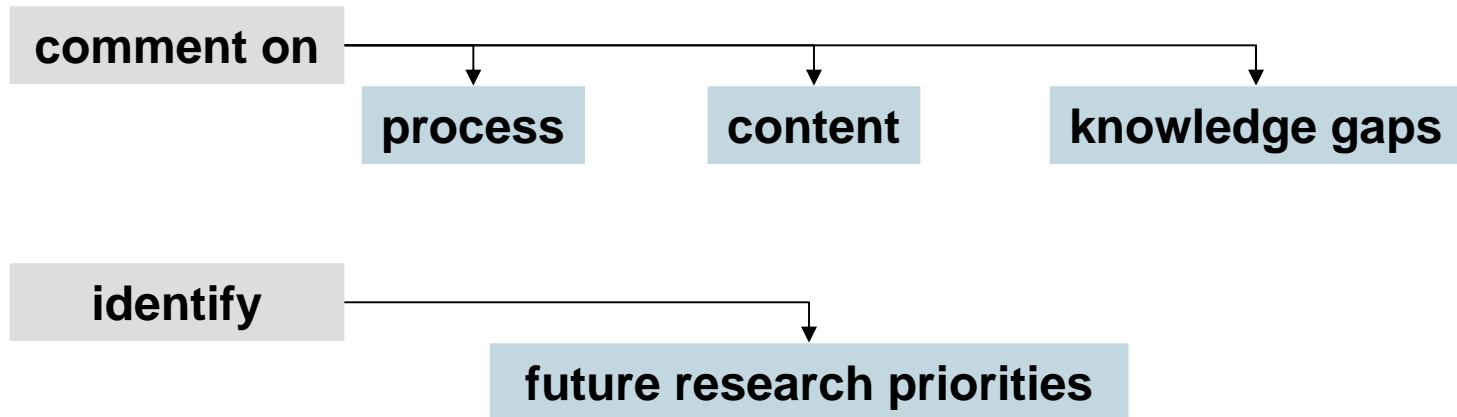

SURBACC 2009

A survey of the perspectives of climate scientists concerning climate change and climate science in the Baltic Sea basin, with special relevance to the BACC book

Purpose of Survey

- allow for a **Baltic specific assessment of science**
- allow the regional scientific community to

- allow for international comparisons of perspectives of state of science
- allow the opportunity for the science community to express an opinion concerning the dissemination of scientific results

Particular Aspects of Survey

- **awareness of BACC by Baltex community**
- **an evaluation of the science**
- **assessment of the accuracy of impacts**
- **assessment of the process of the creation of the report**

Particular Aspects of Survey

enable a comparison between science generated with

a regional perspective in mind

to similar scientific undertakings

from a global perspective

Distribution of Survey

- **The survey will be distributed by email invitation.**
- **The email message will contain the necessary link to an on-line survey.**
- **Access, will restricted to those on the BALTEX mailing list and limited to only one submission.**
- **It is tentatively planned to begin the survey in Winter 2009.**

Past Experience in Survey

of Scientists

The Perspectives of Climate Scientists on Global Climate Change

1996 a hard copy mail out to an international sample of climate scientists

2003 & 2008 an online surveys of climate scientists

Communicating Climate Science

2009 an online survey of climate scientists

of Science Users

2000 Risk management in environmental policy

2007 Perspectives for German Coastal Regions
(administration and regional stakeholders)

Questions, comments and/ or suggestions?
